Section 65400 of the Government Code requires that the Planning Commission shall do both of the following:

- (a) Investigate and make recommendations to the legislative body regarding reasonable and practical means for implementing the general plan or element of the general plan, so that it will serve as an effective guide for orderly growth and development, preservation and conservation of open-space land and natural resources, and the efficient expenditure of public funds relating to the subjects addressed in the general plan.

  - (2) The progress in meeting its share of regional housing needs determined pursuant to Section 65584 and local efforts to remove governmental constraints to the maintenance, improvement, and development of housing pursuant to paragraph (3) of subdivision (c) of Section 65583.

The housing element portion of the annual report, as required by this paragraph, shall be prepared through the use of forms and definitions adopted by the Department of Housing and Community Development pursuant to the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2).

- (3) The degree to which its approved general plan complies with the guidelines developed and adopted pursuant to Section 65040.2 and the date of the last revision to the general plan.

7. Safety.

Government Code Section 65303 provides that, in addition to the mandatory elements, local jurisdictions may adopt optional general plan elements to address other policy matters related to the physical development of the community.

#### **Progress Made in Implementing the General Plan**

This report addresses progress made on implementing the General Plan between adoption of the elements and December 31, 2008. Attached are the following two exhibits.

**Exhibit A** is a table containing abbreviated descriptions of all Action Items from every element, except the Housing Element, and thumbnail description of the status of completion. (It should be noted that some Action Items are intended to be ongoing actions, that is, actions the City undertakes on a recurring basis.)

**Exhibit B** is a discussion of progress made in implementing the Housing Element.

## **Exhibit B: Status of Housing Element Implementation as of December 31, 2008**

### **Context of Housing Element Review**

The Housing Element of the General Plan for the City of Paso Robles was adopted on December 7, 2004. On December 29, 2004, the State Department of Housing and Community Development sent the City a letter finding the Housing Element to be in compliance with State Housing Element Law.

This annual review of the Housing Element will:

- Summarize new residential construction activity between January 1, 2001 (the beginning of the period of the current Regional Housing Needs Allocation) and December 31, 2008;
- Summarize the City's efforts to assist the development of affordable housing, including removing constraints, undertaken through December 31, 2008;
- Report on progress towards implementing the Action Items contained in the 2004 Housing Element.

### **Completed New Housing Units: Regional Housing Need and Quantified Objectives**

Government Code Section 65583(c)(1)(A) requires that the City's General Plan identify adequate sites which will be made available through appropriate zoning and developments standards and with services and facilities, including water and sewer, to meet the City's housing needs for all income groups, including its share of the Regional Housing Need pursuant to Section 65584.

The Regional Housing Allocation Plan adopted by the San Luis Obispo Council of Governments in January 2003 assigns the City following numbers of dwelling units as its share of the Regional Housing Need to be met during the period January 1, 2001 through August 31, 2009.

<b>Income Category</b>	<b>Dwelling Units (Target)</b>
Above Moderate	651
Moderate	520
Low	467
Very Low	627
<b>TOTAL</b>	<b>2,266</b>

The City is not obligated to ensure that the number of dwelling units shown above is built within this time frame, it is only obligated to ensure that there is sufficient land appropriately zoned and served. The Housing Element does, however, establish quantified objectives for building new dwelling units within the same time frame as shown in the table below (next page).

Between January 1, 2004 and December 31, 2008, a total of 1,517 new dwelling units were issued Certificates of Occupancy, and those dwelling units can be divided among the following income groups:

Above Moderate	1,107

<b>Total</b>	<b>1,517</b>

Details showing the composition of the above new units are attached in a document entitled "Paso Robles Historic Residential Growth: January 1, 2001 through December 31, 2008". Together with the "Historic" housing activity reported in the first row of the Quantified Objectives Table, the total numbers of new dwelling units developed between January 1, 2001 and December 31, 2009 are shown in the table below.

## **Exhibit B: Status of Housing Element Implementation as of December 31, 2008**

### **New Housing Units: Under Construction and Approved**

As of December 31, 2008, there were active building permits for 20 units, which can be classified by income groups as follows:

Above Moderate	14	(single family development)
Moderate	6	(West Side condominiums)
Lower	0	
Very Low	0	
Total	20	

In addition to the above figures, there are hundreds of vacant lots in recorded and tentatively-approved subdivisions. Most of these will be affordable only to above moderate income households.

### **New Housing Units: Proposed**

In 2008, an application to develop 84 apartments for low income families at 80 South River Road was filed with the City. This application includes a request for a density bonus and an extra density bonus. At its meeting of November 12, 2008, the Planning Commission recommended that the City Council approve the application, including both density bonuses. At its meeting of January 6, 2009, which is outside of the period for this report, the City Council approved the 84 unit project, including both density bonuses.

### **New Housing Units: Completed Since Last Annual Report**

Chet Dotter (Oak Park) Senior Housing, a 40 unit lower income senior apartment complex located on the northeast corner of 28<sup>th</sup> and Park Streets, was completed and occupied in January 2008.

### **Rehabilitated Units**

Housing rehabilitation presently occurs on a market rate/unsubsidized basis. Between 1988 and 1995, the City did offer CDBG-funded low interest loans to rehabilitate homes and apartments owned or occupied by lower income households. Action Item 3 under Policy H-2 calls for the City to evaluate the feasibility of reinstating the City's housing rehabilitation loan program using CDBG or Redevelopment Low and Moderate Income Housing (LMIH) funds. The 2004 Update to the Redevelopment Implementation Plan, adopted on December 21, 2004, provides that LMIH funds may be used to assist such an activity.

### **Conserved Units**

There are subsidized housing units at risk of conversion to market rate during the Housing Element period (i.e., by June 30, 2009). Peoples' Self-Help Housing Corp. has submitted a letter indicating their willingness to acquire any subsidized housing that may otherwise convert to market rate. (See Appendix 4.0 of the Housing Element.) The 2004 Update to the Redevelopment Implementation Plan, adopted on December 21, 2004, provides that LMIH funds may be used to assist such an activity.

## **Exhibit B: Status of Housing Element Implementation as of December 31, 2008**

### **Removal of Constraints**

On October 5, 2004, the City Council adopted an ordinance amending the Zoning Code to establish development standards for the Mixed Use Overlay Land Use Category. This ordinance, which is listed as Action Item 7 under Housing Element Policy H-1B, facilitates development of rental housing at densities up to 20 units per acre either on the same site as commercial development or on nearby vacant commercially-designated land.

On January 4, 2005, the City Council adopted General Plan Amendment 04-01(B), which removed a privately-owned, vacant, 1.1 acre RMF-12 property from the Oak Park Specific Plan Overlay Land Use Category (which is intended to focus on the long-term redevelopment of Oak Park Public Housing). This action facilitated approval of a development plan for 18 multi-family residential units by the Planning Commission on April 26, 2005.

On May 17, 2005, the City Council adopted an ordinance amending the Zoning Code to establish the R-5 Zoning District and accompanying zoning regulations for high density multi-family housing (up to 20 units per acre). This ordinance, which is listed as Action Item 1b under Housing Element Policy H-1A, facilitates development of rental housing at densities up to 20 units per acre in the RMF-20 land use category.

On November 1, 2005, the City Council adopted an ordinance amending the Zoning Code to remove a requirement that second units share utility meters with the primary unit as it had been learned that utility companies charge higher rates for second units on the same meters.

On October 18, 2005, the City Council adopted an ordinance amending the Zoning Code to establish a Senior Housing Overlay in the northwest quadrant of the City. This overlay allows development of senior housing consisting of 35 or more units on properties within the overlay regardless of underlying zoning. The overlay was established in the 2003 General Plan Update.

On August 29, 2006, the City Council adopted an ordinance amending its Density Bonus Ordinance to bring it into compliance with SB 1818 (2004) and SB 435 (2005).

Although this action was taken after December 31, 2008, it was set in motion prior to that time. On January 6, 2009, the City Council adopted Resolution 09-007, which automatically extended the expiration dates for building permits and zoning entitlements until December 31, 2010.
